3. QUALIFICATION, ACCEPTANCE, REJECTION OF BID:

- a. Required Bidder Qualifications to Purchase Project:
 - i. It is the objective of the Department's multifamily foreclosure process to transform troubled and distressed multifamily properties into viable, long-term affordable rental housing resources. To accomplish this objective, the Department will only award a HUD-foreclosed property to a High Bidder that has the financial capacity and demonstrated experience (approximately five (5) years) of successfully owning, managing and transforming distressed and troubled multifamily properties as viable, low-income housing resources.
 - ii. The Department has the discretion to evaluate, starting with the High Bidder and proceeding in descending order, if necessary, the bidder's experience, qualifications and capacity to purchase the Project based on a review of the documentation described below, information independently obtained and verified by HUD, and the Post-Bid Document Submittals required herein. The documentation must demonstrate that the bidder owns (or has owned) and is successfully managing and operating (or has successfully managed and operated) properties of similar size and characteristics (including problematic complexities) as the Project being sold.  - iv. Based on HUD's review of the documentation submitted, as well as any additional information independently obtained and verified by the Department, HUD will determine whether the bidder has the requisite experience, qualifications and financial capacity to purchase the Project. This determination is within HUD's sole and absolute discretion. If HUD determines that the bidder does not have the experience, qualifications and/or financial capacity to purchase the Project, HUD will reject the bid and proceed to the next highest bidder pursuant to the terms of the Invitation.
 - v. In the event that HUD rejects a bid, HUD will return the bidder's earnest money deposit, provided the bidder has not failed to meet time limits required to submit documentation, or made any misrepresentation or material omission(s) in the bidder's submission of documentation. If the bidder

fails to properly submit all required documentation within the required time limit or HUD determines that the bidder misrepresented his or her experience, qualifications, or financial capacity, the Earnest Money Deposit will be forfeited and retained as liquidated damages. HUD may seek any and all additional remedies.

vi. HUD may require the High Bidder to obtain the services of a qualified multifamily project management firm. Management acceptable to HUD (see paragraph 5 below) must be approved prior to Closing.

b. Bidder Approval:

- i. If HUD determines that the High Bidder is qualified, the High Bidder will be confirmed as and identified as the Purchaser;
- ii. If the high bid is rejected due to HUD's determination that the High Bidder is not qualified to purchase the Project, HUD will notify the High Bidder in writing;
- iii. If HUD rejects the High Bidder, HUD may in its sole discretion elect to contact the Second High Bidder, and/or succeeding bidders as bidders withdraw or do not qualify, to purchase the Project. If contacted by HUD, the Second High bidder or succeeding bidder will be offered the opportunity to purchase the Project and will be given twenty-four (24) hours to submit the earnest money deposit and execute the Acknowledgment, and thereby will be deemed as the High Bidder. HUD will review the bidder's Post- Bid Document Submittals, which must be submitted within the same timeframes detailed in Section 4 of this Invitation beginning from the date the Acknowledgment is executed, in order to determine if the bidder is qualified to purchase the Project;
- iv. HUD's notification of rejection due to lack of qualifications, if applicable, shall be deemed to be given when mailed to the individual that executed the Acknowledgment; and
- v. The written rejection of the bid will be made as promptly as possible and generally within thirty (30) days after the date of the Foreclosure Sale.

Immediately following the Foreclosure Sale the Earnest Money Deposit will be returned to all but the High Bidder. Interest will not be paid on Earnest Money Deposits.
 - a. If HUD determines that the High Bidder is qualified to own and manage the Project, its bid is acceptable and the High Bidder complies with the requirements of this Invitation, the Earnest Money Deposit will be credited against the bid price at Closing.
 - b. If the bid amount is unacceptable, the bidder's Earnest Money Deposit will be refunded.
 - c. If, during the review of the High Bidder, it is found that the High Bidder has made any misrepresentation or material omission(s) in the bidder's submission of documentation, <u>the Earnest Money Deposit will be</u> forfeited.
 - d. If the High Bidder is determined not to be qualified to purchase the Project **and** the High Bidder has complied with the requirements of this Invitation the Earnest Money Deposit will be refunded.
 - e. If the High Bidder has failed to comply with the provisions outlined in this Invitation, the Earnest Money Deposit will be forfeited.
- 5. **REVIEW OF PROJECT MANAGEMENT:** HUD will review the statements and Post-Bid Document Submittals to determine, in its sole discretion, if the proposed management entity has the necessary qualifications to operate, manage, and/or administer the type and nature of the project being offered for sale. HUD may elect to discuss Project management plans after submission of the Post-Bid Document Submittals by the High Bidder. HUD reserves the right to reject the bid of any bidder and <u>retain the Earnest Money Deposit</u>, if the High Bidder does not provide management acceptable to HUD.
- 6. **CLOSING DATE REQUIREMENT**: The date and place for Closing will be determined by HUD and the Foreclosure Commissioner and occur within the time period specified in the Acknowledgment, (Attachment B).

The Owner will be obligated to provide audited annual financial statements to HUD (24 C.F.R. parts 5 and 200.)

At the request of the Secretary, Grantee must supply evidence by means of occupancy reports, physical condition reports, reports on operations, or any evidence as requested to ensure that the above requirements are being met.

- 7. **UNIT NUMBER OR USE CHANGE:** Changes to the use, number, size, or configuration of residential units in the Project; e.g., apartment units, beds in a care facility, from the use as of the date of this Agreement, must receive the written prior approval of HUD.
- 8. **NON-DISCRIMINATION REQUIREMENTS:** The Grantee will comply with the provisions of all federal, state, or local laws prohibiting discrimination in housing.
- HAZARD INSURANCE: Hazard insurance shall be maintained in an amount to ensure that the Grantee is able to restore the Project so that it meets the rental housing requirements described in this Agreement after restoration.
- 10. **DESTRUCTION OF PROJECT:** In the event that any, or all, of the Project is destroyed or damaged by fire or other casualty, the money derived from any insurance on the Project shall be applied to rebuild or replace the Project destroyed or damaged, unless the Secretary gives written approval to use insurance proceeds for other purposes.
- 11. **DEMOLITION OF PROJECT:** The Grantee will not demolish any part of the Project or withdraw any part of the Project from use (except as temporarily necessary for routine repairs), without the prior written approval of HUD.

HUD may give written notice thereof to the Grantee by registered or certified mail, to the address stated in this Agreement, or such other address as subsequently, upon appropriate written notice thereof to the Secretary may be designated by the Grantee as its legal business address. If such violation is not corrected to the satisfaction of the Secretary within thirty (30) calendar days after the date such notice is mailed or within such further time as HUD reasonably determines is necessary to correct the violation, without further notice, HUD may declare a default under this Agreement and may apply to any court, state or federal, for specific performance of this Agreement, for an injunction against any violation of this Agreement, for the appointment of a receiver to take over and operate the Project in accordance with the terms of this Agreement, and/or such other relief as may be appropriate, since the injury to the Secretary arising from a default of the terms of the Agreement would be irreparable and the amount of damage would be difficult to ascertain. The availability of any remedy under the Agreement shall not preclude the exercise of any other remedy available under any provision of the law, nor shall any action taken in the exercise of any remedy be considered a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not be construed as a waiver of the right to exercise that or any other right or remedy at any time.
- 13. **SUCCESSORS AND ASSIGNS:** This Agreement is binding upon the Grantee's heirs, successors and assigns. If HUD approves a Conveyance during the term of this Agreement, it may be conditioned upon, among other things, the grantee assuming in writing Grantee's obligations under this Agreement.
- 14. **RESTRICTIONS:** No Member of Congress or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of the benefits of the Use Agreement, but this provision shall not be construed to extend to this Agreement if the Agreement is made with a corporation for its general benefit.
- 15. **CONTRADICTORY AGREEMENTS:** The Grantee certifies that it has not, and agrees that it will not, execute any other Agreement with provisions contradictory of, or in opposition to, the provisions of this agreement, and that, in any event, the requirements of this Agreement are paramount and controlling as to the rights and obligations set forth herein and supersede any other provisions or requirements in conflict with this Agreement.

- 16. **SEPARABILITY:** The invalidity of any provision of this Agreement shall not affect the validity of the remaining provisions hereof.
- 17. **AMENDMENT:** This Agreement may be amended by the mutual written consent of the parties, except those provisions required by statute.
- 18. **RIDERS TO THE USE AGREEMENT:** The Riders listed below and initialed by the parties are attached to and incorporated into this Use Agreement and will be placed in the Deed to run with the land. RIDER 2 OF 5 REQUIRED REHABILITATION

The Use Agreement shall contain the following provision:

1. REQUIRED REPAIRS: All repair/rehabilitation work (the "Repairs") must be performed in a manner compliant with the essential and material requirements of the state and local codes and laws, ordinances, regulations, Physical Conditions Standards pursuant to 24 CFR Part 5, and Attachment E, if attached hereto.

Note: The Post Closing Repair Requirements (Attachment E) describes the minimum level of repairs required for the Property. It is possible that not all units were surveyed. Any units not surveyed must also be rehabilitated to the same level as those units surveyed. The expected type and cost of the work in the units not surveyed was extrapolated from the units surveyed, However, the type and cost of the work required in the units not surveyed may be more or less than the units surveyed. Regardless of the type and cost of the work in the units not surveyed, all units must be rehabilitated. Further, all units must pass applicable local code enforcement standards and be in compliance with 24 CFR Part 5. All work must be done in a workmanlike manner in accordance with good usage and accepted practices. All materials shall be made and installed so they perform in accordance with their intended purposes. Materials installed shall be of such kind and quality to ensure that the dwelling will provide acceptable durability, economy of maintenance and adequate resistance to weather, moisture, corrosion and fire.

All Repairs, required by this provision, will not be considered complete until such time as HUD or its designee has inspected the Repairs and HUD has accepted the Repairs.

- 2. REPAIR PERIOD: The Grantee covenants that the Repairs will be completed within <u>twelve</u> (<u>12</u>) months from the date of this Use Agreement (the "Repair Period").
- 3. EXTENSION OF THE REPAIR PERIOD: If the Grantee cannot complete the Repairs within the prescribed Repair Period, thirty (30) calendar days prior to the expiration of the Repair Period, Grantee shall submit a written request for an extension to HUD stating the reason(s) for Grantee's inability to complete the Repairs.
 - a. In the event an extension for completion of repairs is granted, the Grantee shall extend expiration of the LOCs accordingly.
 - b. Extensions of time to complete Repairs are within HUD's sole and absolute discretion.
 - c. The granting of one or more extensions shall not obligate HUD to grant additional extensions.
- 4. REPAIR ESCROW: To ensure completion of the Repairs by the Grantee, at Closing the Grantee shall deliver to HUD a minimum of one (1), and a maximum of two (2) unconditional, irrevocable and non-documentary Letter of Credits (LOCs):
 - a. which total \$95,041, **and**
 - b. which shall remain in effect and may be drawn on by HUD for at least <u>eighteen</u> (18) months, six (6) months past the Repair Period (deadline for repairs stated above), **and**
 - c. at least one (1) of the LOC's (the final LOC) must be equal to ten percent (10%) of the total amount of the LOC requirement.

Each LOC must have an expiration date that extends beyond the Repair Period by at least six (6) months. LOCs may be returned as the Grantee completes Repairs and HUD has inspected and accepted the Repairs, with the exception of the final LOC, which will be held for six (6) months past the Repair Period.

- 5. REPORTS: HUD will monitor the progress of the Repairs.
 - Quarterly Reports: Grantee must submit quarterly reports to HUD on the status of Repairs as required above in paragraph 1 (Post-Closing Repair Report, Attachment L.) The report must include:
 - i. the number and type of units completed,
 - ii. a list of major repairs and percentage completed,
 - iii. a narrative describing:
 - (a) any special circumstances which may, or have delayed the repairs,
 - (b) the status of the planned rehabilitation, i.e. are repairs ahead of, on schedule, or behind on the original rehabilitation schedule.

- b. <u>Additional Reports</u>: Upon request, Grantee must submit reports, in addition to the Quarterly Reports, to HUD. The frequency and content of these reports will be provided to the Grantee by HUD.
- 6. RENTS: The Grantee covenants not to increase the rent for any unit, from the rent HUD is requiring a tenant to pay on the Closing date, until such unit meets all the requirements set forth in paragraph 1, above. Rents for units to be covered by a Housing Assistance Payment Contract may be increased only pursuant to and following execution of such Contract.
- 7. RELOCATION: If temporary or permanent relocation is necessary because of repairs required under this provision, Grantee covenants to comply with the Relocation provision of this Use Agreement.
- 8. NONCOMPLIANCE: If Grantee fails to complete the repair requirement within the prescribed timeframe, and no extension by written agreement has been granted by HUD, HUD and any/all successors in office, in its sole discretion, shall be entitled to:
 - a. Enter and terminate the estate hereby conveyed, or
 - b. Cash any LOC and seek remedies provided in the Enforcement provision of this Use Agreement, as HUD deems appropriate.

If HUD cashes the Grantee's LOC as a remedy for the Grantee's default under this Section, HUD may apply the funds to complete the repairs, correct latent defects in the completed repairs, retain the funds as liquidated damages, or for such other project purposes as HUD deems appropriate.

These rights and remedies may be exercised separately or in combination with the rights and remedies set forth in the Enforcement provision of this Use Agreement.

- 9. LENDER OR SECURITY INTEREST: If the Grantee fails to repair the Property in accordance with this Use Agreement, HUD will not exercise the remedies as described in paragraph 8 above, if any lender holding a lien or security interest on the Property:
 - a. Gives written notice to HUD within the period provided for repairs, that it intends to complete the repairs, and
 - b. Completes such repairs within thirty (30) calendar days of the notice or within such longer periods as HUD may approve in writing.

RIDER 3 OF 5 AFFORDABILITY OF UNITS

The Use Agreement shall contain the following provision:

Use Restriction

- 1. The Grantee (Owner) shall maintain the property as affordable rental housing for a period of twenty (20) years after the date of this Use Agreement or such earlier time as HUD may specify in writing ("Restricted Period").
- 2. Grantee shall submit a written request to HUD for any change to the number or configuration of residential units required to be maintained, as affordable rental housing.
- 3. The Grantee (Owner) shall not unreasonably refuse to lease units to, or otherwise discriminate against, very low-income families.

If the Grantee (Owner) is temporarily unable to lease all of the specified number of dwelling units to very low-income families, one or more units may be leased to families who are low-income but not very low-income, only with HUD's prior written approval. - 3. has not rejected any such applicants except for reasons acceptable to HUD.

- for <u>50</u> dwelling units, the unit rent cannot exceed <u>30</u> percent (<u>30</u>%) of <u>80</u> percent (<u>80</u>%) of the area median income, not necessarily the income of the family, as determined by HUD, with adjustments for family size, less a reasonable utility allowance for utilities paid by the tenant, or
- the Section 8 Voucher Payment Standard, less the utility allowance established by the voucher provider, or
- Market Rent in the immediate area established by a rent comparability study prepared, at the Grantee's (Owner's) expense, in accordance with HUD requirements.

Annual certification

The Grantee (Owner)	shall certify to HU	D annually, in	a manner	acceptable to	HUD,	that the	requirements	in the
above paragraphs hav	e been fulfilled.

This provision is limited in application, for tenants or applicants with Section 8 Certificates or Vouchers, to those units, which rent for an amount not greater than one-hundred and twenty percent (120%) of the Section 8 fair market rent for a comparable unit in the area as determined by HUD.
- 2. This restriction shall bind the Grantee, any/all successors, assigns and Grantees for value, for a period equal to the Restricted Period, which is twenty (20) years from the date of this Use Agreement. In the event of a breach or a threatened breach of this covenant, HUD, any/all successors in office and/or one or more third-party beneficiaries, shall be entitled to institute legal action to enforce performance and observance of such covenant and to enjoin any acts which are in violation of such covenant. For the purposes of this restriction, a third-party beneficiary shall be any person who holds a Certificate of Family Participation or a Voucher under Section 8 or any equivalent document under successor legislation.

Total =	50		

The property is comprised of fifty (50) residential units in seven (7) separate 2-story buildings with distribution as listed above ("A" units are ground level and "B" units are 2nd story). Ground level units have a concrete patio while 2nd story units have a railed balcony.

One unit of a three (3) bedroom unit in Building 1 is being used as the Property Manager's office for the property. The window unit was removed and an exterior hollow metal door was installed.

There is one stand-alone common-area, a mail/laundry area with attached hot water/boiler room.

The building exteriors are comprised of a combination of painted T-111 wood siding and natural brick. Trim is painted wood.

Roofs are pitched with asphalt shingle as their covering.

Stair cases are open riser, steel-pan, concrete-filled and painted metal with painted metal railings. Each upper landing and unit balcony has painted metal railing as well. These stair railings and guard railings do not meet the current Code.

Ground level interior floors are wood joist with a vented crawl space below, with access through a closet in one of the units. Balconies and landings for the 2nd story units are wood joist with concrete caps.

Natural gas is distributed to the site from a single metering point for the property.

Electrical power is distributed to the site from a single metering point for the property.

Water is distributed to the site from a single metering point for the property.

Residents are not individually billed for any of their utilities that are consumed. It is all divided and included in their rent.

Hot water is supplied to the units from a boiler located within a separate room attached to the mail/laundry building and is constantly circulated by an electrical circulation pump.

Resident units do not have individual hot water heaters.

Heating and cooling are provided at each unit via a HVAC system. The heating is provided by a forced air gas furnace and the cooling is provided by individual condensers that are located on the exterior at the ground level of the building and interior evaporator/air handling units in the interior. The HVAC system consists of a metal duct distribution system in each unit.

Kitchen ranges are 4-burner, with oven, natural gas combination units. There are no disposals or dishwashers provided in these units. Refrigerators are refrigerator/freezer combination units and are "apartment" sized.

Individual units are supplied with battery operated smoke detectors. Exterior area security lighting has been added around the site. There is a minimum of walkway pedestal lighting near the mail/laundry room common area.

Resident parking is accommodated by a parking area adjacent to the entry complex road on the north and east side of the property. At the NE corner of the property there is a larger lot that provides parking and the location of the unenclosed trash dumpster. There is a south entry drive with adjacent parking leading to a larger center tenant parking area.

This complex does not represent a historic facility and as such will not require historic preservation consideration while completing the repairs indicated herein.

OBSERVATIONS FOR EXTERIOR

The general appearance of the exterior of the property shows neglect from lack of maintenance of the exterior of the buildings as well as the landscaping. Covering a significant portion of the building exteriors, where T-111 siding exists, it is weathered due to lack of paint and/or in need of replacement due to moisture induced delaminating, rot, and/or impact damage.

Several of the balconies on the 2nd level units show extreme damage to the floor joists with many showing structural damage evidenced by sagging away from the main building wall. On those units, evidence of joist deterioration is visible from a ground level inspection.

Second story entry landings are generally configured to accommodate two upstairs units – a common area with walled wings at either end. Construction is wood joist with a concrete cap. Virtually all of the bottoms of the winged walls show various degrees of deterioration from moisture where the walls meet the concrete cap. Several of these are showing damage similar to the balconies.

Many of the fascia boards at the rafter ends are showing weather deterioration and will need to be replaced.

OBSERVATIONS FOR INTERIOR

The interior of the units are in better condition showing there has been regular maintenance and upkeep. Very limited instances of wall damage or painting being required were observed in any of the 20 units that were inspected. Floor coverings were generally in poor condition except for a few isolated instances where they showed no damage from the residents.

Doors, interior and exterior, were generally in satisfactory condition. Isolated instances where replacement was required are indicated.

Windows, are a single glazed unit vertical lift. Most of the jamb friction devices are not working properly. Some glazing has been replaced with Plexiglas. Most of the wood interior sills show Termite damage. These will need to be replaced and further Termite damage needs to be assessed. Most of the locking devices are not working properly. The window screens were present for the most part, the main reason for missing screens were tenant added window AC units.

PLUMBING/ELECTRICAL/MECHANICAL

PLUMBING: Limited instances of plumbing problems were found in the individual units. (Leaking faucets in the kitchens, bathrooms, and bathtubs, and some running toilets). The Property Manager did indicate that the collector sewer pipes, under the buildings, had been scoped and there were significant problems with the sewer pipes leading from each building to the municipal sewer line. The reports from those inspections were not made available to the inspection team and independent scoping of those lines should be conducted by HUD, with the reports evaluated for repair costing, as part of the overall repair cost for the property.

ELECTRICAL: Generally, the electrical system for the property is in good working order. There were a few isolated issues:

Building 1 has experienced some occurrences of power surges/voltage dips that need to be evaluated by a qualified electrician.

The pedestal lighting fixtures by the walkways need to have the grounding/bonding checked as there have been reports of residents being shocked when contacting the fixtures.

2

Attachment E

Some of the inspected units have had Ground Fault Current Interrupting (GFCI) receptacles added to the bathrooms and kitchen sinks as required by National Electrical Code for Life Safety. The remaining units in the property will require those particular receptacles to be upgraded to GFCI.

MECHANICAL: Most of the units still have the original natural gas forced air furnaces that were installed during the construction of the complex. A few of the units did have newer furnaces installed. The condition of the original units, is that they are well beyond their useful life and should be replaced. The furnaces are installed in the interior of the units and the potential for Natural Gas or Carbon Monoxide leakage into the unit is significant.

The Property Manager had indicated that eight (8) of the original furnaces had already been replaced. The remaining 42 are recommended to be replaced as part of this repair survey.

Similarly, the exhaust flues for the furnaces are the original single wall vent pipe. In many instances, the vents had been repaired with aluminum duct tape. That application is a code violation and can also lead to exhaust gas leakage into the unit. Our recommendation is to replace all of the vent pipes with new double wall vent pipes.

The units are individually air conditioned, comprised of an outdoor condenser and an indoor evaporator for the air handler box, which is also used for the forced air furnace system. The air conditioning systems have been regularly maintained but the concrete pads that they sit on are not level and many of the units are at the end of their useful life. Eight (8) units have been replaced.

The complex has a centralized hot water boiler with a circulation pump to maintain ready access of hot water at each unit and the laundry room. This is a more energy efficient arrangement than individualized hot water heaters in each unit. The boiler system is in a good state of repair and does not represent a system that will require maintenance/repair as part of this assessment.

HEALTH AND SAFETY

HEALTH: Mold growth was observed in nine (9) of the twenty (20) apartment units that were inspected. No other health-related adverse findings were observed based on the limitations of the reports and applicable standards and guidelines.

SAFETY: The safety issues detected are:

- Ground Fault Current Interrupting receptacles in bathrooms and kitchens need to be installed where they have not been as of yet.
- The pedestal lighting fixtures have electrical grounding issues that need to be identified and corrected.
- The original furnaces are beyond their useful life and pose a life safety issue.
- Furnace flue is single wall pipe that needs to be upgraded to double wall pipe. The installation of the replacement furnaces, where they occurred, have been improperly reconnected to the existing flue pipe using aluminum duct tape to bridge the gap between the new furnace and the existing duct work..
- All of the battery operated smoke detectors that were tested, were inoperable. The Property Manger stated that the batteries needed replacement.

CODE ISSUES

Three (3) code issues were detected:

- Ground Fault Current Interrupting receptacles in bathrooms and kitchens National Electrical Code.
- Furnace flue pipe single-wall pipe and improper installation/maintenance International Fuel Gas Code.
- Stair railings and guard railings are out of code and not secured to the structure properly International Building Code.

HANDICAP ACCESSIBILITY

Only one unit was identified as an "accessible" unit because it had a ramp to the side sliding glass door in addition to the front landing stairs. The ramp does not meet ADA requirements and the access through the sliding glass door does not meet wheelchair accessibility. The floor plan for that particular unit was also a standard floor plan and the interior dimensions of the bathroom and kitchen do not meet ADA requirements. This property does not have an ADA handicap accessible unit. There is no designated ADA parking for tenants of visitors.

ENVIRONMENTAL

A Phase I Environmental Site Assessment (ESA) was conducted to investigate the Property for "Recognized Environmental Conditions," (RECs) defined by American Society for Testing and Materials (ASTM) E 1527-05 as the presence or likely presence of any hazardous substances or petroleum products on the subject site under conditions that indicate an existing release, a past release, or a material threat of a release into the structures, ground, groundwater or surface water of the

subject site. Mold, asbestos and lead are not recognized as Recognized Environmental Conditions by ASTM; however they are addressed in the Phase I ESA report.

No evidence of any Recognized Environmental Conditions for the Property was found during the investigation. Mold, lead and asbestos are not considered Recognized Environmental Conditions by ASTM.

Visible mold growth and indications of water leaks was observed in nine (9) of the twenty (20) units that were inspected.

Three Leaking Petroleum Storage Tank sites are located within a 0.5 mile search distance from the Property. Based on the location of the sites with respect to the Property it does not appear that the leaking storage tank sites have had or will have an adverse environmental impact on the Property. Accordingly, GPI recommends no further investigation regarding the sites.

Lead-based paint (LBP) inspection and testing (with XRF) was performed as part of the Phase I ESA. All of the XRF readings for lead-based paint in interior and exterior building components at the Property were negative.

Inspection and sampling for suspect asbestos containing material (ACM) was performed as part of the Phase I ESA. Samples of suspect materials were collected and analyzed for asbestos. The samples were negative for asbestos.

§ 5.703 Physical condition standards for HUD housing that is decent, safe, sanitary and in good repair (DSS/GR).

These standards address the major areas of the HUD housing: the site; the building exterior; the building systems; the dwelling units; the common areas; and health and safety considerations.

- (a) Site. The site components, such as fencing and retaining walls, grounds, lighting, mailboxes/project signs, parking lots/driveways, play areas and equipment, refuse disposal, roads, storm drainage and walkways must be free of health and safety hazards and be in good repair. The site must not be subject to material adverse conditions, such as abandoned vehicles, dangerous walks or steps, poor drainage, septic tank back-ups, sewer hazards, excess accumulations of trash, vermin or rodent infestation or fire hazards.
- (b) *Building exterior*. Each building on the site must be structurally sound, secure, habitable, and in good repair. Each building's doors, fire escapes, foundations, lighting, roofs, walls, and windows, where applicable, must be free of health and safety hazards, operable, and in good repair.
- (c) *Building systems*. Each building's domestic water, electrical system, elevators, emergency power, fire protection, HVAC, and sanitary system must be free of health and safety hazards, functionally adequate, operable, and in good repair.
- (d) Dwelling units.
 - (1) Each dwelling unit within a building must be structurally sound, habitable, and in good repair. All areas and aspects of the dwelling unit (for example, the unit's bathroom, call-for-aid (if applicable), ceiling, doors, electrical systems, floors, hot water heater, HVAC (where individual units are provided), kitchen, lighting, outlets/switches, patio/porch/balcony, smoke detectors, stairs, walls, and windows) must be free of health and safety hazards, functionally adequate, operable, and in good repair.
 - (2) Where applicable, the dwelling unit must have hot and cold running water, including an adequate source of potable water (note for example that single room occupancy units need not contain water facilities).
 - (3) If the dwelling unit includes its own sanitary facility, it must be in proper operating condition, usable in privacy, and adequate for personal hygiene and the disposal of human waste.
 - (4) The dwelling unit must include at least one battery-operated or hardwired smoke detector, in proper working condition, on each level of the unit.
- (e) Common areas. The common areas must be structurally sound, secure, and functionally adequate for the purposes intended. The basement/garage/carport, restrooms, closets, utility, mechanical, community rooms, day care, halls/corridors, stairs, kitchens, laundry rooms, office, porch, patio, balcony, and trash collection areas, if applicable, must be free of health and safety hazards, operable, and in good repair. All common area ceilings, doors, floors, HVAC, lighting, outlets/switches, smoke detectors, stairs, walls, and windows, to the extent applicable, must be free of health and safety hazards, operable, and in good repair. These standards for common areas apply, to a varying extent, to all HUD housing, but will be particularly relevant to congregate housing, independent group homes/residences, and single room occupancy units, in which the individual dwelling units (sleeping areas) do not contain kitchen and/or bathroom facilities.
- (f) Health and safety concerns. All areas and components of the housing must be free of health and safety hazards. These areas include, but are not limited to, air quality, electrical hazards, elevators, emergency/fire exits, flammable materials, garbage and debris, handrail hazards, infestation, and lead-based paint. For example, the buildings must have fire exits that are not blocked and have hand rails that are undamaged and have no other observable deficiencies. The housing must have no evidence of infestation by rats, mice, or other vermin, or garbage and debris. The housing must have no evidence of electrical hazards, natural hazards, or fire hazards. The dwelling units and common areas must have proper ventilation and be free of mold, odor (e.g., propane, natural gas, methane gas), or other observable deficiencies. The housing must comply with all requirements related to the evaluation and reduction of lead-based paint hazards and have available proper certifications of such (see 24 CFR part 35).
- (g) Compliance with state and local codes. The physical condition standards in this section do not supersede or preempt state and local codes for building and maintenance with which HUD housing must comply. HUD housing must continue to adhere to these codes.
